**ORCHIDS PAPER PRODUCTS COMPANY AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**

**Note 1 — Basis of Presentation**

Orchids Paper Products Company and its subsidiaries (collectively, “Orchids” or the “Company”) produces bulk tissue paper, known as parent rolls, and converts parent rolls into finished products, including paper towels, bathroom tissue and paper napkins. The Company predominately sells its products for use in the “at-home” market under private labels to a customer base consisting primarily of dollar stores, discount retailers and grocery stores that offer limited alternatives across a wide range of products, and, to a lesser extent, the “away-from-home” market. The Company has owned and operated its manufacturing facility in Pryor, Oklahoma since 1998. On June 3, 2014, the Company completed the acquisition of certain assets from Fabrica de Papel San Francisco, S.A. de C.V. (“Fabrica”) pursuant to an Asset Purchase Agreement (see Note 2). In connection with the acquisition of these assets, the Company formed three wholly-owned subsidiaries: Orchids Mexico DE Holdings, LLC, Orchids Mexico DE Member, LLC, and OPP Acquisition Mexico, S. de R.L. de C.V. (“Orchids Mexico”). The accompanying consolidated financial statements include the accounts of Orchids and these wholly-owned subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation.

The Company’s common stock trades on the NYSE MKT under the ticker symbol “TIS.”

The accompanying financial statements have been prepared without an audit, pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted (“GAAP”) in the United States have been condensed or omitted pursuant to the rules and regulations. However, the Company believes that the disclosures made are adequate to make the information presented not misleading when read in conjunction with the audited financial statements and the notes in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2014, filed with the SEC on March 9, 2015. Management believes that the financial statements contain all adjustments necessary for a fair presentation of the results for the interim periods presented. All adjustments were of a normal, recurring nature. The results of operations for the interim period are not necessarily indicative of the results for the entire fiscal year.

Certain prior period amounts in the accompanying financial statements have been reclassified to conform to the current period presentation. These reclassifications did not affect previously reported amounts of net income.

**Note 2 — Acquisition of Fabrica Assets and U.S. Business**

On May 5, 2014, Orchids Paper Products Company and its wholly owned subsidiary, Orchids Mexico, entered into an asset purchase agreement (“APA”) with Fabrica to acquire certain assets and 100% of the U.S. business of Fabrica. One June 3, 2014, the Company closed on the transaction set forth in the APA, and in connection therewith, entered into a supply agreement (“Supply Agreement”) and a lease agreement (“Equipment Lease Agreement”) (collectively, the “Fabrica Transaction”).

*Related Party Transactions*

The Company incurred the following transactions with Fabrica during the three and six-month periods ended June 30:

	<b>Three months ended June</b>		<b>Six months ended June 30,</b>	
	<b>30,</b>		<b>2015</b>	<b>2014</b>

Intangible Asset - Customer Relationships	12	2,690	112	2,578
		<u>\$ 17,990</u>	<u>\$ 753</u>	<u>\$ 17,237</u>

There were no changes to the \$7.6 million goodwill recognized from the Fabrica Transaction during the three and six-month periods ending June 30, 2015 and 2014. No goodwill impairment has been recorded as of June 30, 2015.

**ORCHIDS PAPER PRODUCTS COMPANY AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (continued)**

**Note 3 — Fair Value Measurements**

The Company does not report any assets or liabilities at fair value in the financial statements. However, the fair value of the Company's long-term debt is estimated by management to approximate the carrying value of \$47,300,000 and \$36,362,000 at June 30, 2015 and December 31, 2014, respectively. Management's estimates are based on periodic comparisons of the characteristics of the Company's obligations, including floating interest rates, credit rating, maturity and collateral, to current market conditions as stated by an independent third-party financial institution. Such valuation inputs are considered a Level 2 measurement in the fair value valuation hierarchy.

**Note 4 — Commitments and Contingencies**

The Company may be involved from time to time in litigation arising from the normal course of business. In management's opinion, as of the date of this report, the Company is not engaged in legal proceedings which individually or in the aggregate are expected to have a materially adverse effect on the Company's results of operations or financial condition.

In October 2008, the Company entered into a contract to purchase 334,000 MMBTU per year of natural gas. This contract has been extended through December 2016. In September 2014, the Company entered into a similar contract with a different vendor for natural gas requirements in 2017. Commitments remaining under these contracts are as follows:

<b>Period</b>	<b>MMBTUs</b>	<b>Price per MMBTU</b>	<b>Management fee per MMBTU</b>
July 2015 - September 2015	92,300	\$ 4.35	\$ 0.07
October 2015 - December 2015	91,900	\$ 4.50	\$ 0.07
January 2016 - March 2016	95,900	\$ 4.53	\$ 0.07
April 2016 - June 2016	93,600	\$ 4.17	\$ 0.07
July 2016 - September 2016	92,300	\$ 4.26	\$ 0.07
October 2016 - December 2016	91,900	\$ 4.42	\$ 0.07
January 2017 - December 2017	467,505	\$ 4.06	-

**ORCHIDS PAPER PRODUCTS COMPANY AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (continued)**

Purchases under the gas contract were \$0.4 million and \$0.5 million for the three months ended June 30, 2015 and 2014, respectively, and \$0.8 million and \$1.0 million for the six-month periods ended June 30, 2015 and 2014, respectively. If the Company is unable to purchase the contracted amounts and the market price at that time is less than the contracted price, the Company would be obligated under the terms of the agreement to reimburse an amount equal to the difference between the contracted amount and the amount actually purchased, multiplied by the difference between the contract price and a price designated in the contract (approximates spot price).

In November 2013, we announced two projects to upgrade our paper making and converting assets at our Pryor, Oklahoma facility: a project to replace two existing paper machines with a new paper machine in our paper mill, which was placed into service in March 2015, and a project to upgrade an existing converting line, which was placed into service in June 2015. These projects had a total estimated cost of \$38.9 million. As part of these projects, we have entered into purchase orders to purchase a paper machine and purchase converting equipment. As of June 30, 2015, our remaining obligations under these purchase orders total \$3.1 million. The purchase order to purchase a paper machine is denominated in Euros. The amounts included herein were translated to US dollars using the spot exchange rate as of June 30, 2015. Additionally, in the second quarter of 2015, we began construction on a new manufacturing facility in Barnwell, South Carolina, which has a total estimated cost of \$110.0 million to \$127.0 million. As of June 30, 2015, we had \$32.3 million of obligations under purchase orders related to this facility.

**Note 5 — Inventories**

Inventories at June 30, 2015 and December 31, 2014 were as follows:

	<u>June 30, 2015</u>	<u>December 31, 2014</u>
	(in thousands)	
Raw materials	\$ 3,824	\$ 4,392
Bulk paper rolls	1,353	861
Converted finished goods	8,138	4,595
Inventory valuation reserve	(215)	(198)
	<u>\$ 13,100</u>	<u>\$ 9,650</u>

**Note 6 — Property, Plant and Equipment**

Property, plant and equipment at June 30, 2015 and December 31, 2014 was:

	<u>June 30, 2015</u>	<u>December 31, 2014</u>
	(in thousands)	
Land	\$ 1,119	\$ 1,119
Buildings and improvements	23,190	23,190

Vehicles	1,489	1,489
Nondepreciable machinery and equipment (parts and spares)	9,502	9,121
Construction-in-process	17,588	27,381
	<u>\$ 193,813</u>	<u>\$ 169,551</u>

**ORCHIDS PAPER PRODUCTS COMPANY AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (continued)**

**Note 7 — Long-Term Debt and Revolving Line of Credit**

In June 2015, the Company entered into the Second Amended and Restated Credit Agreement (the “Credit Agreement”), with U.S. Bank National Association (“U.S. Bank”) consisting of the following:

- a \$25.0 million revolving credit line due June 2020;
- a \$47.3 million Term Loan with a 5-year term due June 2020 and payable in quarterly installments of \$675,000 through June 2016 and \$1.0 million per quarter thereafter;
- a \$115.0 million delayed draw term loan with a 2-year draw period due June 2020 and payable in quarterly installments beginning in September 2017 of 1.5% of the June 30, 2017 outstanding balance; and
- an accordion feature allowing the revolving credit line and/or delayed draw commitment under the Credit Agreement to be increased by up to \$50.0 million at any time on or before the expiration date of the Credit Agreement.

The Credit Agreement has the effect of (i) combining the Company’s existing \$20 million revolving line of credit designated for the purchase and construction of a paper machine and converting line in Pryor, OK and \$27.3 million currently outstanding under the Company’s existing term loan into a \$47.3 million term loan, (ii) increasing the delayed draw facility from \$40 million to \$115 million, (iii) extending the maturity of the delayed draw facility from August 2015 to June 2020, and (iv) adding a \$50 million accordion feature. Proceeds from the delayed draw term loan must be utilized solely to finance the purchase and installation of new equipment and construction at the Company’s Barnwell, South Carolina facility.

Under the terms of the Credit Agreement, amounts outstanding will bear interest at a variable rate of LIBOR plus a specified margin, or the base rate plus a specified margin, at the Company’s option. The specified margin is based on the Company’s quarterly Leverage Ratio, as defined in the Credit Agreement. The following table outlines the specified margins and the commitment fees payable under the Credit Agreement:

Leverage Ratio	LIBOR Margin	Base Margin	Commitment Fee
Less than 1.00	1.25%	0.00%	0.15%
Greater than or equal to 1.00 but less than 2.00	1.50%	0.00%	0.20%
Greater than or equal to 2.00 but less than 3.00	1.75%	0.00%	0.25%
Greater than or equal to 3.00 but less than 3.50	2.25%	0.00%	0.30%
Greater than or equal to 3.50	2.50%	0.25%	0.35%

The Company’s leverage ratio at June 30, 2015 was approximately 1.64.

Long-term debt at June 30, 2015 and December 31, 2014 consists of:

	June 30, 2015	December 31, 2014
	(in thousands)	
Revolving line of credit, maturing on June 3, 2019	\$ -	\$ 7,712
Term Loan, maturing on June 3, 2020, due in quarterly installments of \$675,000 for the first two years and \$1,000,000 thereafter, excluding interest paid separately	-	28,650
Term Loan, maturing on June 25, 2020, due in quarterly installments of \$675,000 for the first year and \$1,000,000 thereafter, excluding interest paid separately	47,300	-
	<u>\$ 47,300</u>	<u>\$ 36,362</u>
Less current portion	2,700	2,700
	<u>\$ 44,600</u>	<u>\$ 33,662</u>

The amount available under the revolving credit line may be reduced in the event that the Company’s borrowing base, which is based upon qualified receivables and qualified inventory, is less than \$25 million.

**ORCHIDS PAPER PRODUCTS COMPANY AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (continued)**

Obligations under the Credit Agreement are secured by substantially all of the Company's assets. The Credit Agreement contains representations and warranties, and affirmative and negative covenants customary for financings of this type, including, but not limited to, limitations on additional borrowings, additional investments and asset sales. The financial covenants, which are tested as of the end of each fiscal quarter, require the Company to maintain the following specific ratios: fixed charge coverage (minimum of 1.20 to 1.0) and leverage (maximum of 4.00 to 1.0 through June 2017; maximum of 3.75 to 1.0 on September 30, 2017; maximum of 3.50 to 1.0 on December 31, 2017, and thereafter). The Company was in compliance with these financial covenants at June 30, 2015.

**Note 8 — Income Taxes**

As of June 30, 2015, our annual estimated effective income tax rate is 33.8%. The annual estimated effective tax rate for 2015 differs from the statutory rate due primarily to U.S. manufacturing tax credits and foreign and state income taxes. Our actual effective income tax rate was 25.3% and 27.7% for the three and six-month periods ended June 30, 2015, respectively. These rates differ from the estimated effective income tax rate primarily due to a change in our estimated state tax liabilities. As of June 30, 2014, our annual estimated effective income tax rate is 32.0%. The actual effective tax rate for the three and six-month periods ended June 30, 2014 was 37.2% and 32.1%, respectively. The annual estimated effective tax rate for 2014 differs from the statutory rate due primarily to manufacturing tax credits.

**Note 9 — Earnings per Share**

During the first quarter of 2013, the Company granted restricted stock to certain employees. These awards include a nonforfeitable right to receive dividends and therefore are considered to participate in undistributed earnings with common shareholders. Therefore, the Company calculates basic and diluted earnings per common share using the two-class method, under which net earnings are allocated to each class of common stock and participating security. The computation of basic and diluted net income per common share for the three-month and six-month periods ended June 30, 2015 and 2014 is as follows:

	<b>Three Months Ended June</b>		<b>Six Months Ended June 30,</b>	
	<b>30,</b>		<b>2015</b>	<b>2014</b>
	<b>2015</b>	<b>2014</b>	<b>2015</b>	<b>2014</b>
Net income - (\$ thousands)	\$ 3,878	\$ 546	\$ 5,114	\$ 3,189
Less: distributed earnings allocable to participating securities	(1)	(2)	(2)	(4)
Less: undistributed earnings allocable to participating securities	-	2	1	2
Distributed and undistributed earnings allocable to common shareholders	<u>\$ 3,877</u>	<u>\$ 546</u>	<u>\$ 5,113</u>	<u>\$ 3,187</u>
Weighted average shares outstanding	9,801,616	8,268,575	9,281,257	8,167,076
Effect of stock options	<u>50,982</u>	<u>77,319</u>	<u>62,630</u>	<u>91,016</u>
Weighted average shares outstanding - assuming dilution	<u>9,852,598</u>	<u>8,345,894</u>	<u>9,343,887</u>	<u>8,258,092</u>
Net income per common share:				
Basic	\$ 0.40	\$ 0.07	\$ 0.55	\$ 0.40
Diluted	\$ 0.39	\$ 0.07	\$ 0.55	\$ 0.39
Stock options not considered above because they were anti-dilutive	560,000	545,000	560,000	40,000

**Note 10 — Stock Incentives**

In April 2014, the Orchids Paper Products Company 2014 Stock Incentive Plan (the "2014 Plan") was approved. The 2014 Plan replaced the Orchids Paper Products Company 2005 Stock Incentive Plan (the "2005 Plan") and provides for the granting of stock options and other stock based awards to employees and Board members selected by the Board's Compensation Committee. A total of 400,000 shares may be issued pursuant to the 2014 Plan. As of June 30, 2015, there were 315,000 shares available for issuance under the 2014 Plan.

**ORCHIDS PAPER PRODUCTS COMPANY AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (continued)**

*Stock Options with Time-Based Vesting Conditions*

The grant date fair value of the following option grants was estimated using the Black-Scholes option valuation model. Option valuation models require the input of highly subjective assumptions including the expected stock price volatility. The following table details the options granted to certain members of the Board of Directors and management that were valued using the Black-Scholes valuation model and the assumptions used in the valuation model for those grants during the six months ended June 30, 2015 and 2014:

<b>Grant Date</b>	<b>Number of Shares</b>	<b>Exercise Price</b>	<b>Grant Date Fair Value</b>	<b>Risk-Free Interest Rate</b>	<b>Estimated Volatility</b>	<b>Dividend Yield</b>	<b>Expected Life (years)</b>
May-14	35,000	\$ 29.65	\$ 7.50	2.62%	41%	4.72%	5
June-14	5,000	\$ 30.09	\$ 7.67	2.63%	41%	4.65%	5
May-15	40,000	\$ 22.485	\$ 4.64	2.13%	40%	6.23%	5

The Company expenses the cost of these options granted over the vesting period of the option based on the grant-date fair value of the award.

*Stock Options with Market-Based Vesting Conditions*

During the first six months of 2014, the Board of Directors granted options to purchase 145,000 shares of the Company's common stock to certain members of management. These options will become exercisable in four equal tranches, if at all, if and when the share price of the common stock closes at a certain percentage of the purchase price of the option for three consecutive business days, in accordance with the following vesting schedule:

	<b>Share price required to achieve vesting</b>
Tranche 1	\$ 34.788
Tranche 2	\$ 42.350
Tranche 3	\$ 51.425
Tranche 4	\$ 60.500

Any unvested portion of the options shall expire five years from the date of grant and the options shall terminate ten years after the date of grant. As these options include a market condition, the grant date fair value and implicit service period of these option grants were estimated using a Monte Carlo option valuation model. The following table details the options granted to certain members of management that were valued using the Monte Carlo valuation model and the assumptions used in the valuation model for those grants during the six months ended June 30, 2014. No options granted during the six months ended June 30, 2015 were valued using the Monte Carlo option valuation model.

<b>Grant Date</b>	<b>Number of Shares</b>	<b>Exercise Price</b>	<b>Grant Date Fair Value</b>	<b>Risk-Free Interest Rate</b>	<b>Estimated Volatility</b>	<b>Dividend Yield</b>	<b>Expected Life (years)</b>	<b>Derived Service Period (years)</b>
January 14 - Tranche 1	10,000	\$ 31.125	\$ 5.64	1.98%	31%	4.50%	5.15	0.31
January 14 - Tranche 2	10,000	\$ 31.125	\$ 5.46	1.98%	31%	4.50%	5.58	1.15
January 14 - Tranche 3	10,000	\$ 31.125	\$ 5.03	1.98%	31%	4.50%	5.97	1.94
January 14 - Tranche 4	10,000	\$ 31.125	\$ 4.27	1.98%	31%	4.50%	6.25	2.50
February 14 - Tranche 1	25,000	\$ 30.88	\$ 5.51	1.98%	31%	4.60%	5.17	0.35
February 14 - Tranche 2	25,000	\$ 30.88	\$ 5.35	1.98%	31%	4.60%	5.60	1.19
February 14 - Tranche 3	25,000	\$ 30.88	\$ 4.88	1.98%	31%	4.60%	5.99	1.98
February 14 - Tranche 4	25,000	\$ 30.88	\$ 4.15	1.98%	31%	4.60%	6.27	2.54
May 14 - Tranche 1	1,250	\$ 28.185	\$ 5.06	2.03%	31%	4.70%	5.36	0.71
May 14 - Tranche 2	1,250	\$ 28.185	\$ 4.74	2.03%	31%	4.70%	5.78	1.56
May 14 - Tranche 3	1,250	\$ 28.185	\$ 4.02	2.03%	31%	4.70%	6.14	2.29
May 14 - Tranche 4	1,250	\$ 28.185	\$ 3.29	2.03%	31%	4.70%	6.39	2.79

The Company expenses the cost of these options granted over the implicit, or derived, service period of the option based on the grant-date fair value of the award.

**ORCHIDS PAPER PRODUCTS COMPANY AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (continued)**

*Options Issued Outside of the 2014 Plan*

In April 2014, the Company's stockholders voted to approve the options granted to Mr. Jeffrey S. Schoen, the Company's President and Chief Executive Officer, on November 8, 2013. Upon his appointment as an officer of the Company, Mr. Schoen was granted an option to purchase up to 400,000 shares of the common stock of the Company at a purchase price of \$30.25 per share. The option will become exercisable, if at all, if and when the share price of the Company's common stock closes at a certain percentage of the purchase price of the option for three consecutive business days, in accordance with the following vesting schedule:

Share price closes at or above the following percentage of the purchase price for the Option	Number of shares that become vested
115% (share price \$34.788)	100,000
140% (share price \$42.35)	100,000
170% (share price \$51.425)	100,000
200% (share price \$60.50)	100,000

These options were granted outside of the 2005 Plan or the 2014 Plan. Any unvested portion of the option shall expire five years from the date of grant and the option shall terminate ten years after the date of grant. The Company used a Monte Carlo option valuation model to estimate the grant date fair value of each tranche of 100,000 options, as they include a market condition. The Company will expense the cost of the options granted over the implicit service period of the options based on the completed Monte Carlo models. The following table details the assumptions used in the valuation model for the options granted to Mr. Schoen:

	Number of Shares	Exercise Price	Grant Date Fair Value	Risk-Free			Expected Life (years)	Derived Service Period (years)
				Interest Rate	Estimated Volatility	Dividend Yield		
Tranche 1	100,000	\$ 30.25	\$ 5.18	2.10%	30%	4.60%	4.99	0.40
Tranche 2	100,000	\$ 30.25	\$ 5.04	2.10%	30%	4.60%	5.42	1.25
Tranche 3	100,000	\$ 30.25	\$ 4.31	2.10%	30%	4.60%	5.79	2.00
Tranche 4	100,000	\$ 30.25	\$ 3.50	2.10%	30%	4.60%	6.04	2.50

*Total Option Expense*

The Company recognized the following expenses related to all options granted under the 2005 Plan, the 2014 Plan and the Schoen options:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Time-Based Vesting Options	\$ 186,000	\$ 302,000	\$ 187,000	\$ 306,000
Market-Based Vesting Options	224,000	690,000	478,000	837,000
Total compensation expense related to stock options	<u>\$ 410,000</u>	<u>\$ 992,000</u>	<u>\$ 665,000</u>	<u>\$ 1,143,000</u>

*Future Expected Market-Based Stock Option Expense*

The grant of options that vest based on a market condition will have a material impact on the Company's results of operations. Based on the derived service periods of the options, the Company expects to expense the compensation cost related to these options as shown in the following table. However, if the market condition is achieved for any tranche of these options prior to the end of the derived service period, all remaining expense related to that tranche would be recognized in the period in which the market condition is achieved.

	2015				2015 Total	2016 Total
	Q1	Q2	Q3	Q4		
	(in thousands)					
Tranche 1	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -
Tranche 2	134	104	1	1	240	-
Tranche 3	73	72	72	72	289	59
Tranche 4	47	48	47	47	189	136
Total expense	<u>\$ 254</u>	<u>\$ 224</u>	<u>\$ 120</u>	<u>\$ 120</u>	<u>\$ 718</u>	<u>\$ 195</u>

*Restricted Stock*

In February 2013, the Company granted 16,000 shares of restricted stock to certain employees under the 2005 Plan. These awards were

valued at the arithmetic mean of the high and low market price of the Company's stock on the grant date, which was \$21.695 per share, and vest ratably over a three year period beginning on the first anniversary of the grant date. The first third of unforfeited shares, or 2,666 shares, vested in February 2014. The second third of unforfeited shares, or 2,333 shares, vested in February 2015. The Company expenses the cost of restricted stock granted over the vesting period of the shares based on the grant-date fair value of the award. The Company recognized expense of \$12,000 and \$14,000 for the three-month periods ended June 30, 2015 and 2014, respectively, and \$25,000 and \$29,000 for the six-month periods ended June 30, 2015 and 2014, respectively, related to shares of restricted stock granted.

**ORCHIDS PAPER PRODUCTS COMPANY AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (continued)**

**Note 11 — Major Customers and Concentration of Credit Risk**

The Company sells its paper production in the form of parent rolls and converted products. Revenues from converted product sales and parent roll sales in the three and six months ended June 30, 2015 and 2014 were:

	<u>Three Months Ended June 30,</u>		<u>Six Months Ended June 30,</u>	
	<u>2015</u>	<u>2014</u>	<u>2015</u>	<u>2014</u>
	(in thousands)		(in thousands)	
Converted product net sales	\$ 39,787	\$ 27,731	\$ 77,202	\$ 53,885
Parent roll net sales	2,508	1,465	2,508	3,070
Net sales	<u>\$ 42,295</u>	<u>\$ 29,196</u>	<u>\$ 79,710</u>	<u>\$ 56,955</u>

Credit risk for the Company in the three and six months ended June 30, 2015 and 2014 was concentrated in the following customers who each comprised more than 10% of the Company's total net sales:

	<u>Three Months Ended June 30,</u>		<u>Six Months Ended June 30,</u>	
	<u>2015</u>	<u>2014</u>	<u>2015</u>	<u>2014</u>
Converted product customer 1	33%	42%	35%	46%
Converted product customer 2	10%	*	10%	*
Converted product customer 3	*	10%	*	10%
Converted product customer 4	14%	10%	15%	10%
Total percent of net sales	<u>57%</u>	<u>62%</u>	<u>60%</u>	<u>66%</u>

\* Customer did not account for more than 10% of sales during the period indicated

At June 30, 2015 and December 31, 2014, the significant customers accounted for the following amounts of the Company's accounts receivable (in thousands):

	<u>June 30,</u>		<u>December 31,</u>	
	<u>2015</u>		<u>2014</u>	
Converted product customer 1	\$ 3,220	29%	\$ 2,634	28%
Converted product customer 2	2,186	20%	1,410	15%
Converted product customer 3	*		*	
Converted product customer 4	1,095	10%	813	9%
Total of accounts receivable	<u>\$ 6,501</u>	<u>59%</u>	<u>\$ 4,857</u>	<u>52%</u>

\* Customer did not account for more than 10% of sales during the period indicated

At June 30, 2015, one additional parent roll customer, a related party, accounted for approximately 12% of the Company's accounts receivable. This customer did not account for more than 10% of sales during the three or six-month periods ended June 30, 2015 or 2014.

**Note 12 — Follow-On Stock Offering**

In April 2015, the Company completed an underwritten public follow-on offering of 1,500,000 shares of its common stock at \$23.00 per share. The underwriters were granted an option to purchase up to an additional 225,000 shares for a period of 30 days, which was not exercised. Net proceeds to the Company were \$32.2 million, after giving effect to expenses incurred related to the offering.

**Note 13 – ODFA Pooled Financing**

As of June 30, 2015, the Company had a note receivable of \$558,000 related to amounts due under the ODFA pooled financing agreement. This amount is included in other current assets in the consolidated balance sheet. The Company recognized \$160,000 and \$345,000 of other income in the consolidated statement of income for the three-month and six-month period ended June 30, 2015, respectively, related to this agreement.

#### **Note 14 — New Accounting Pronouncements**

In May 2014, the FASB issued Accounting Standards Update 2014-09, “Revenue from Contracts with Customers” (“ASU 2014-09”). ASU 2014-09 clarifies the principles for recognizing revenue and develops a common revenue standard under U.S. GAAP under which an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU 2014-09 is currently effective for the Company for interim and annual periods beginning on or after December 15, 2016. However, on July 9, 2015, the FASB voted to approve a one-year deferral of the effective date. Management is currently assessing the impact ASU 2014-09 will have on the Company, but it is not expected to have a material effect on the Company’s financial position, results of operations or cash flows.

In April 2015, the FASB issued Accounting Standards Update 2015-03, “Interest – Imputation of Interest: Simplifying the Presentation of Debt Issuance Costs” (“ASU 2015-03”). ASU 2015-03 requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. ASU 2015-03 is effective for annual and interim periods beginning after December 15, 2015. This standard is not expected to have a material effect on the Company’s financial position, results of operations or cash flows, as it simply requires a change in presentation and does not affect the recognition and measurement guidance for debt issuance costs.

In April 2015, the FASB issued Accounting Standards Update 2015-05, “Intangibles – Goodwill and Other – Internal-Use Software – Customer’s Accounting for Fees Paid in a Cloud Computing Arrangement” (“ASU 2015-05”). ASU 2015-05 provides guidance to customers about whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, then the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. The guidance does not change the accounting for a customer’s service contracts. ASU 2015-05 is effective for annual and interim periods beginning after December 15, 2015. Management is currently assessing the impact ASU 2015-05 will have, if any, on the Company’s financial position, results of operations and cash flows.

In July 2015, the FASB issued Accounting Standards Update 2015-11, “Inventory – Simplifying the Measurement of Inventory” (“ASU 2015-11”). ASU 2015-11 requires inventory measured using all methods other than the last-in, first-out (LIFO) or retail methods to be measured at the lower of cost or net realizable value. Net realizable value is defined as the estimated selling price in the ordinary course of business less reasonably predictable costs of completion, disposal and transportation. ASU 2015-11 is effective for public companies for annual and interim periods beginning after December 15, 2016. Management is currently assessing the impact ASU 2015-11 will have, if any, on the Company’s financial position, results of operations and cash flows.

#### **Note 15 — Subsequent Event**

On July 29, 2015, the Board of Directors authorized a quarterly cash dividend of \$0.35 per outstanding share of the Company’s common stock. The Company expects to pay this dividend on August 24, 2015 to stockholders of record at the close of business on August 10, 2015.

## ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

### Forward-Looking Information

The following Management's Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements. These statements relate to, among other things:

- our business strategy;
- the market opportunity for our products, including expected demand for our products;
- our estimates regarding our capital requirements; and
- any of our other plans, objectives, and intentions contained in this report that are not historical facts.

These statements relate to future events or future financial performance, and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "could," "would," "target," "expects," "plans," "intends," "anticipates," "believes," "estimates," "predicts," "potential" or "continue" or the negative of such terms or other comparable terminology, or by discussion of strategy that may involve risks and uncertainties. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. The forward-looking statements contained in this Form 10-Q reflect our views and assumptions only as of the date hereof. You should not place undue reliance on forward-looking statements. We caution you that these forward-looking statements are only predictions, which are subject to risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements.

Some factors that could materially affect our actual results are detailed under the caption "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014, as filed with the SEC on March 9, 2015, subsequent filings made with the SEC, and those identified in Part II, Item 1A of this Form 10-Q, which include but are not limited to:

- failure to bring the new converting line in Pryor, Oklahoma, to full capacity in a timely manner;
- failure to complete in a timely and cost efficient manner the construction planned in Barnwell, South Carolina;
- intense competition in our markets and aggressive pricing by our competitors could force us to decrease our prices and reduce our profitability;
- a substantial percentage of our converted product revenues are attributable to a small number of customers who may decrease or cease purchases at any time;
- disruption in our supply or increase in the cost of fiber;
- Fabrica's failure to execute under the Supply Agreement;
- changes in our retail trade customers' policies and increased dependence on key retailers in developed markets;
- excess supply in the market may reduce our prices;
- the availability of, and prices for, energy;
- failure to purchase the contracted quantity of natural gas may result in financial exposure;
- our exposure to variable interest rates;
- the loss of key personnel;
- labor interruption;
- natural disaster or other disruption to our facilities; and
- other factors discussed from time to time in our filings with the SEC.

If any of these risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may vary significantly from what we projected. Any forward-looking statement you read in the following Management's Discussion and Analysis of Financial Condition and Results of Operations reflects our current views with respect to future events and is subject to the risks listed above and other risks, uncertainties, and assumptions relating to our operations, results of operations, growth strategy, and liquidity. We assume no obligation to publicly update or revise these forward-looking statements for any reason, whether as a result of new information, future events, or otherwise.

## Overview of the Business

We are a customer focused, national supplier of high quality consumer tissue products. We produce bulk tissue paper, known as parent rolls, and convert parent rolls into finished products, including paper towels, bathroom tissue and paper napkins. We sell any parent rolls not required by our converting operation to other converters. Our integrated manufacturing facilities have flexible production capabilities, which allow us to produce high quality tissue products with short production times across all quality tiers for customers in our target regions. We predominately sell our products under private labels to our core customer base in the “at home” market, which consists primarily of dollar stores, discount retailers and grocery stores that offer limited alternatives across a wide range of products. Our focus to date has been the dollar stores (which are also referred to as discount retailers) and the broader discount retail market because of their overall market growth, consistent order patterns and low number of stock keeping units (“SKUs”). The “at-home” tissue market consists of several quality levels, including a value tier, premium tier and ultra-premium tier. To a lesser extent, we service customers in the “away from home” market. Our core customer base in the “away from home” market consists of companies in the janitorial market and food service market. Most of the products we sell in the “away from home” market are included in the value tier. While we expect to continue to service this market in the near term, we do not consider the “away from home” market a growth vehicle for us.

Our strategy is to capitalize on positive market trends by leveraging our industry experience, customer relationships and low cost, strategic operating footprint to drive growth and profitability for the business. Our facilities have been designed to have the flexibility to produce and convert parent rolls across different product tiers and to use both virgin and recycled fibers to maximize quality and to control costs. We own an integrated facility in Pryor, Oklahoma which has the capacity to supply 74,000 tons per year primarily to service the central United States. Since 2006, we have consistently invested to modernize the paper making and converting equipment at this location and provide the flexibility discussed above. Furthermore, over the past several years, we have invested approximately \$39 million at this facility for a new paper machine and a new converting line. The new paper machine commenced operations in March 2015. We believe the new paper machine will improve our margins by reducing our manufacturing cost and by providing us additional parent roll capacity. Our new converting line commenced operations in June 2015 and is expected to add 12,500 tons of converting capacity. In June 2014, we expanded our geographic presence to service the United States West coast through a strategic transaction with Fabrica de Papel San Francisco, S.A. de C.V. (“Fabrica”), one of the largest tissue manufacturers by capacity in Mexico. The Fabrica Transaction provided us access to its U.S. customers, which we believe will allow us to further penetrate the region, and the supply agreement (“Supply Agreement”) we entered into with Fabrica has provided access to up to 19,800 tons of product each year (up to 27,500 tons in the first two years of the agreement).

As part of our strategy to be a national supplier of high quality consumer tissue products, we began construction on our plans to build a world-class integrated tissue operation in Barnwell, South Carolina in the second quarter of 2015. We believe that this new facility will allow us to better serve our existing customers in the Southeast United States, while also enabling us to penetrate new customers in this region. The facility is designed to provide highly flexible, cost competitive production across all quality tiers with paper making capacity of between 35,000 and 40,000 tons per year and converting capacity of between 30,000 and 32,000 tons per year. The first converting line is expected to be operational by the end of the first quarter of 2016 and the second converting line is expected to be operational by the end of the second quarter of 2016. The paper machine will utilize a highly versatile process capable of producing ultra-premium tier products, and is expected to be operational by the beginning of 2017. We estimate the total costs of the project to be approximately \$110 to \$127 million, which will be financed through a combination of bank debt and the proceeds from our recent follow-on stock offering.

Since our inception, we have strategically expanded capacity in both paper manufacturing and finished product converting to meet market demand and customers’ quality requirements. The installation of a new paper machine in our Oklahoma facility, which started up in early March 2015, and installation of a new converting line in our Oklahoma facility, which started up in June 2015, is expected to bring our manufacturing capacity in line with our paper production capacity, at approximately 74,000 tons. However, any parent rolls in excess of converting production requirements are sold into the market. We adjust our paper making production based on our internal converting needs for parent rolls and the open market demand for parent rolls. Our strategy is to sell all of the parent rolls we manufacture as converted products (such as paper towels, bathroom tissue and napkins), which generally carry higher margins than non-converted parent rolls. The capacity obtained under the previously described Fabrica Transaction will be sold in converted product form and we do not plan to sell any excess capacity arising from this transaction in parent roll form. Parent rolls are a commodity product and thus are subject to market pricing. We plan to continue to sell any excess parent roll capacity from Oklahoma on the open market as long as market pricing is profitable. When converting production requirements exceed paper mill capacity, we will purchase parent rolls in the open market to meet those converting requirements.

We supply both national and regional customers, with a focus on regions of the United States with high population growth. We focus our sales efforts on areas within approximately 500 miles of either our manufacturing facility in Oklahoma or Fabrica's manufacturing facility in Mexicali, Mexico, as we believe this radius maximizes our freight cost advantage. Because we are one of the few integrated tissue paper manufacturers in the areas around both our Oklahoma facility and Fabrica's Mexicali facilities, we believe we typically have lower freight costs to our customers' distribution centers located in our target regions. Our target region around our Oklahoma facility includes Texas, Oklahoma, Kansas, Missouri and Arkansas. The Fabrica Transaction has allowed us to more effectively service customers that are located on the West Coast by directly shipping them products that are produced in Mexico under the Supply Agreement. As a result, we have expanded our target region to include California, Nevada, Arizona, New Mexico and Utah. Our planned manufacturing facility in Barnwell, South Carolina is intended to help us meet the growing demand in the South Eastern region of the United States. Demand for tissue in the "at-home" tissue market has historically been closely correlated to population growth and as such, performs well in a variety of economic conditions. Our expanded target region has experienced strong population growth for the past fourteen years relative to the national average, and these trends are expected to continue.

Our products are sold primarily under our customers' private labels and, to a lesser extent, under our brand names such as Colortex®, My Size®, Velvet®, Big Mopper®, Linen Soft®, Soft & Fluffy®, and Tackle®. The Fabrica Transaction gave us the exclusive right to sell products under Fabrica's brand names into the United States, including under the names Virtue®, Truly Green®, Golden Gate Paper® and Big Quality®. All of our converted product net sales are derived through truck load purchase orders from our customers. Parent roll net sales are derived from purchase orders that generally cover a one-month time period. We do not have supply contracts with any of our customers, which is normal practice within our industry. Because our products are a daily consumable item, the order stream from our customer base is fairly consistent with limited seasonal fluctuations. However, we typically experience some mild seasonal softness in the first and fourth quarters of each year, primarily due to the effects of winter weather on consumers' buying habits and occasional effects of holidays on shipping schedules. Changes in the national economy, in general, do not materially affect the market for our converted products due to their non-discretionary nature and high degree of household penetration.

Our profitability depends on several key factors, including but not limited to:

- the volume of converted product sales;
- the cost of fiber used in producing paper;
- the market price of our products;
- the efficiency of operations in both our paper mill and converting facility; and
- the cost of energy.

The private label market of the tissue industry is highly competitive, and many discount retail customers are extremely price sensitive. As a result, it is difficult to affect price increases. We expect these competitive conditions to continue.

### **Our Strategy**

Our strategy is to be a customer focused national supplier of high quality consumer tissue products. We believe we will achieve this strategy by:

- strengthening and expanding our customer base through cooperative and innovative product development and superior customer service;
- focusing on higher growth geographic regions and private label channels;
- maintaining flexible, low cost integrated facilities able to produce a broad product spectrum;
- expanding our manufacturing footprint via the Fabrica Transaction and our expansion in South Carolina; and
- employing a disciplined capital strategy by focusing on growing free cash flow and targeting high return capital projects with paybacks of less than five years.

Part of our strategy is to increase our volume of premium and ultra-premium tier products shipped to customers, as these products typically have a higher gross margin than value tier products. The following graph shows shipments of our premium tier and ultra-premium tier products as a percentage of total cases shipped:

## Comparative Three-Month Periods Ended June 30, 2015 and 2014

### Net Sales

	<b>Three Months Ended June 30,</b>	
	<b>2015</b>	<b>2014</b>
<b>(in thousands, except tons)</b>		
Converted product net sales	\$ 39,787	\$ 27,731
Parent roll net sales	2,508	1,465
<b>Net sales</b>	<b>\$ 42,295</b>	<b>\$ 29,196</b>
Converted product tons shipped	20,334	13,244
Parent roll tons shipped	2,520	1,642
<b>Total tons shipped</b>	<b>22,854</b>	<b>14,886</b>

Net sales in the quarter ended June 30, 2015 increased \$13.1 million, or 45%, from \$29.2 million in 2014 to \$42.3 million in 2015. Net sales figures represent the gross selling price, including freight, less discounts and pricing allowances. The increase in net sales is due to a \$12.1 million increase in the sales of converted products and a \$1.0 million increase in the net sales of parent rolls.

Net sales of converted product increased \$12.1 million, or 43%, from \$27.7 million in 2014 to \$39.8 million in 2015. The increase in converted product net sales is primarily due to a 54% increase in tonnage shipped, which was partially offset by a 7% decrease in net selling price per ton. Converted product tons shipped increased due to higher shipment volumes from our Pryor location and due to the effect of the U.S. business acquired from Fabrica, which accounted for 71% of the increase in tonnage shipped. Net selling price per ton decreased due to the mix of products sold, primarily due to the effects of the “away-from-home” business acquired in the Fabrica Transaction, which have a lower selling price than “at-home” sales.

Net sales of parent rolls increased \$1.0 million, or 71%, from \$1.5 million in 2014 to \$2.5 million in 2015. The increase in parent roll net sales is primarily due to a 53% increase in parent roll tons shipped and a 12% increase in the net selling price per ton. Parent roll tons shipped increased primarily due to higher production volumes resulting from our new paper machine, which started up in March 2015. The increase in selling price per ton is primarily due to a strong market for our parent rolls.

### Cost of Sales

	<b>Three Months Ended June 30,</b>	
	<b>2015</b>	<b>2014</b>
<b>(in thousands, except gross profit margin %)</b>		
Cost of goods sold	\$ 32,243	\$ 21,474
Depreciation	2,333	2,232
<b>Cost of sales</b>	<b>\$ 34,576</b>	<b>\$ 23,706</b>
<b>Gross profit</b>	<b>\$ 7,719</b>	<b>\$ 5,490</b>
<b>Gross profit margin %</b>	<b>18.3%</b>	<b>18.8%</b>

The major components of cost of sales are the cost of internally produced paper, raw materials, direct labor and benefits, freight costs of products shipped to customers, insurance, repairs and maintenance, energy, utilities, depreciation and the cost of converted products purchased under the Supply Agreement with Fabrica.

Cost of sales increased \$10.9 million, or 46%, to \$34.6 million, compared to \$23.7 million in the same period of 2014, due primarily to increased sales, higher fiber costs, the effects of consumption of external parent rolls in the early part of the quarter due to our new paper machine start-up in March 2015 and higher depreciation expense. As a percentage of net sales, cost of sales increased to 81.7% in the 2015 quarter from 81.2% in the 2014 quarter.

Paper production costs in Oklahoma decreased primarily due to lower overhead costs and a 21% increase in tons produced following the start-up of the new paper machine in Oklahoma. Average fiber prices across our fiber basket were higher in the second quarter of 2015 compared to the same period in 2014, resulting in an approximate \$760,000 decrease in gross profit. Additionally, we consumed approximately 300 tons of purchased parent rolls at a cost of approximately \$370,000 during the quarter. Paper production costs excluding fiber in our Oklahoma operating facility decreased approximately 17% when compared to the prior year quarter due to the successful start-up of the new paper machine in March 2015.

Converting production costs in Oklahoma decreased on a per case basis when compared to the same quarter in 2014, primarily due to a 30% increase in cases produced. Converting production costs in Oklahoma increased on a dollar-for-dollar basis, primarily due to higher labor costs and higher maintenance and repair costs.

### Gross Profit

Gross profit in the quarter ended June 30, 2015 increased \$2.2 million, or 41%, to \$7.7 million compared to \$5.5 million in the same period last year. Gross profit as a percentage of net sales in the 2015 quarter was 18.3% compared to 18.8% in the 2014 quarter. The gross profit increase as a percent of net sales was primarily the result of higher fiber costs, consumption of external parent rolls and higher depreciation expense, as discussed above.

### Selling, General and Administrative Expenses

	<b>Three Months Ended June 30,</b>	
	<b>2015</b>	<b>2014</b>
<b>(in thousands, except SG&amp;A as a % of net sales)</b>		
Commission expense	\$ 302	\$ 388
Other S,G&A expenses	1,938	4,019
Selling, General & Adm exp	\$ 2,240	\$ 4,407
SG&A as a % of net sales	5.3%	15.1%

Selling, general and administrative expenses include salaries, commissions to brokers and other miscellaneous expenses. Selling, general and administrative expenses decreased \$2.2 million, or 49%, in the quarter ended June 30, 2015 as compared to the same period in 2014 primarily due to \$1.5 million of costs related to the Fabrica Transaction incurred in 2014 and a \$512,000 decrease in non-cash compensation expense related to options granted. Commissions also decreased due to the mix of products sold. As a percentage of net sales, selling, general and administrative expenses decreased to 5.3% in the second quarter of 2015 compared to 15.1% in the same period of 2014.

### Amortization of Intangibles

The Company recognized \$377,000 and \$108,000 of amortization expense related to the intangible assets acquired in the Fabrica Transaction during the quarter ended June 30, 2015 and 2014, respectively.

## Operating Income

As a result of the foregoing factors, operating income for the quarter ended June 30, 2015, was \$5.1 million compared to operating income of \$975,000 for the same period of 2014.

## Interest Expense and Other Income

	Three Months Ended June 30,	
	2015	2014
	(in thousands)	
Interest expense	\$ 64	\$ 112
Other (income) expense, net	\$ (152)	\$ (7)
Income before income taxes	\$ 5,190	\$ 870

Interest expense includes interest on all debt and amortization of deferred debt issuance costs. Interest expense for the second quarter of 2015 totaled \$64,000 compared to interest expense of \$112,000 in the same period in 2014. Interest expense for 2015 and 2014 excludes \$159,000 and \$37,000, respectively of interest capitalized on significant projects during the quarter. The higher level of total interest in 2015 resulted from higher debt balances due primarily to additional debt incurred in conjunction with the Fabrica Transaction and additional borrowings under our revolving line of credit to finance capital expenditures.

## Income Before Income Taxes

As a result of the foregoing factors, income before income taxes increased \$4.3 million to \$5.2 million in the quarter ended June 30, 2015, compared to \$870,000 in the same period in 2014.

## Income Tax Provision

As of June 30, 2015, our annual estimated effective tax rate for the full year is estimated to be 33.8%, as compared to the 34.4% effective tax rate estimated at the end of the first quarter of 2015. Primarily as a result of a change in our estimated state tax liabilities, the actual effective tax rate for the second quarter of 2015 was 25.3%. The annual estimated effective tax rate for 2015 differs from the statutory rate due primarily to U.S. manufacturing tax credits and foreign and state income taxes. As of June 30, 2014, our annual estimated effective income tax rate is 32.0%. The actual effective tax rate for the quarter and six-month period ended June 30, 2014 was 37.2% and 32.1%, respectively. The annual estimated effective tax rate for 2014 differs from the statutory rate due primarily to manufacturing tax credits.

## Comparative Six-Month Periods Ended June 30, 2015 and 2014

### Net Sales

	Six Months Ended June 30,	
	2015	2014
	(in thousands, except tons)	
Converted product net sales	\$ 77,202	\$ 53,885
Parent roll net sales	2,508	3,070
Net sales	\$ 79,710	\$ 56,955
Converted product tons shipped	39,171	25,478
Parent roll tons shipped	2,520	3,428
Total tons shipped	41,691	28,906

Net sales increased 40% to \$79.7 million in the six months ended June 30, 2015, compared to \$57.0 million in the same period of 2014. Net sales figures represent gross selling price, including freight, less discounts and pricing allowances. The increase in net sales is due to a \$23.3 million increase in the sales of converted products being partially offset by a \$562,000 decrease in the net sales of parent rolls.

Net sales of converted product for the six months ended June 30, 2015 increased by \$23.3 million, or 43%, to \$77.2 million compared to \$53.9 million in the same period last year. The increase in net sales of converted products is primarily due to a 54% increase in converted product tonnage shipped, which was partially offset by a 7% decrease in net selling price per ton. Converted product tons shipped increased due to higher shipment volumes from our Pryor location and due to the effect of the U.S. business acquired from Fabrica, which accounted for 78% of the increase in tonnage shipped. Net selling price per ton decreased due to the mix of products sold.

Net sales of parent rolls decreased \$562,000, or 18%, to \$2.5 million in the six months ended June 30, 2015, compared to \$3.1 million in the same period last year. Net sales of parent rolls decreased due to a 26% decrease in parent roll tonnage shipped, which was partially offset by an 11% increase in net selling price per ton. The decrease in parent roll tonnage shipped was due to the demolition of two paper machines in September of 2014 in conjunction with our new paper machine project. The new paper machine started up in early March 2015; thus, we were unable to produce as many parent rolls in the first quarter of 2015. The increase in selling price per ton is primarily due to a strong market for our parent rolls.

### Cost of Sales

	<b>Six Months Ended June 30,</b>	
	<b>2015</b>	<b>2014</b>
<b>(in thousands, except gross profit margin %)</b>		
Cost of goods sold	\$ 62,784	\$ 41,006
Depreciation	4,421	4,441
Cost of sales	\$ 67,205	\$ 45,447
Gross profit	\$ 12,505	\$ 11,508
Gross profit margin %	15.7%	20.2%

The major components of cost of sales are the cost of internally produced paper, raw materials, direct labor and benefits, freight costs of products shipped to customers, insurance, repairs and maintenance, energy, utilities, depreciation, and the cost of converted products purchased under the Supply Agreement with Fabrica.

Cost of sales increased approximately \$21.8 million, or 48%, to \$67.2 million for the six months ended June 30, 2015, compared to \$45.4 million in the same period of 2014, due primarily to increased sales, the effects of the Oklahoma paper machine project on our first quarter results, higher fiber costs, and higher labor and maintenance and repair costs in our converting operation. As a percentage of net sales, cost of sales increased to 84.3% of net sales in the six-month period ended June 30, 2015, compared to 79.8% of net sales in the six-month period ended June 30, 2014. The increase in cost of sales as a percentage of net sales in the six months ended June 30, 2015, was primarily attributed to the costs mentioned above.

In the six months ended June 30, 2015, average fiber prices across our fiber basket increased by 7% compared to the same period in 2014, resulting in an approximate \$1.5 million decrease in gross profit. Furthermore, during the 2015 period, we consumed approximately 3,000 tons of purchased parent rolls at a cost of approximately \$3.4 million as we ramped up production on the new paper machine.

Converting production costs in Oklahoma decreased on a per case basis due to a 9% increase in production during the 2015 period. On a dollar-for-dollar basis, converting production costs in Oklahoma increased primarily due to higher labor and maintenance and repairs costs, which were partially offset by lower outside warehousing expenses and lower employee relocation expenses.

### Gross Profit

Gross profit in the six months ended June 30, 2015 increased \$1.0 million, or 9%, to \$12.5 million compared to \$11.5 million in the same period last year. Gross profit as a percentage of net sales in the 2015 period was 15.7% compared to 20.2% in the 2014 quarter. The gross profit decrease as a percent of net sales was primarily the result of higher fiber costs, the effects of external paper purchases, and higher maintenance and repair costs in our converting operation, as discussed above.

## Selling, General and Administrative Expenses

	Six Months Ended June 30,	
	2015	2014
	(in thousands, except SG&A as a % of net sales)	
Commission expense	\$ 631	\$ 832
Other S,G&A expenses	4,106	5,754
Selling, General & Adm exp	\$ 4,737	\$ 6,586
SG&A as a % of net sales	5.9%	11.6%

Selling, general and administrative expenses include salaries, commissions to brokers and other miscellaneous expenses. Selling, general and administrative expenses decreased \$1.8 million, or 28%, in the six-month period ended June 30, 2015 as compared to the same period in 2014 primarily due to \$1.5 million of costs related to the Fabrica Transaction incurred in 2014 and a \$363,000 decrease in non-cash compensation expense related to options granted. Commissions also decreased due to the mix of products sold. As a percentage of net sales, selling, general and administrative expenses decreased to 5.9% in the six-month period of 2015 compared to 11.6% in the same period of 2014.

## Amortization of Intangibles

The Company recognized \$754,000 and \$108,000 of amortization expense related to the intangible assets acquired in the Fabrica Transaction during the six-month period ended June 30, 2015 and 2014, respectively.

## Operating Income

As a result of the foregoing factors, operating income for the six months ended June 30, 2015 was \$7.0 million compared to operating income of \$4.8 million for the same period of 2014.

## Interest Expense and Other Income

	Six Months Ended June 30,	
	2015	2014
	(in thousands)	
Interest expense	\$ 278	\$ 125
Other (income) expense, net	\$ (338)	\$ (6)
Income before income taxes	\$ 7,074	\$ 4,695

Interest expense includes interest on all debt and amortization of deferred debt issuance costs. Interest expense for the six-month period ended June 30, 2015 totaled \$278,000 compared to interest expense of \$125,000 in the same period in 2014. Interest expense for 2015 and 2014 excludes \$124,000 and \$110,000, respectively, of interest capitalized on significant projects during the quarter. The higher level of total interest in 2015 resulted from higher debt balances due primarily to additional debt incurred in conjunction with the Fabrica Transaction and additional borrowings under our revolving line of credit to finance capital expenditures. The Company recognized \$345,000 of other income in the consolidated statement of income for the six-month period ended June 30, 2015 related to the ODFA pooled financing agreement. No amounts were recorded under this agreement in the six-month period ended June 30, 2014.

## Income Before Income Taxes

As a result of the foregoing factors, income before income taxes increased \$2.4 million to \$7.1 million in the six months ended June 30, 2015, compared to \$4.7 million in the same period in 2014.

## Income Tax Provision

As of June 30, 2015, our annual estimated effective tax rate for the full year is estimated to be 33.8%, as compared to the 34.4% effective tax rate estimated at the end of the first quarter of 2015. Primarily as a result of a change in our estimated state tax liabilities, the actual effective tax rate for the first six months of 2015 was 27.7%. The annual estimated effective tax rate for 2015 differs from the statutory rate due primarily to U.S. manufacturing tax credits and foreign and state income taxes. As of June 30, 2014, our annual estimated effective income tax rate is 32.0%. The actual effective tax rate for the quarter and six-month period ended June 30, 2014 was 37.2% and 32.1%, respectively. The annual estimated effective tax rate for 2014 differs from the statutory rate due primarily to manufacturing tax credits.

## Future Expected Stock Option Expense

In 2014, the Board of Directors granted options to purchase 145,000 shares of the Company's common stock to certain members of management. Additionally, on April 9, 2014, the Company's shareholders approved the option to purchase 400,000 shares of the Company's common stock granted to Mr. Jeffrey S. Schoen, the Company's President and Chief Executive Officer, on November 8, 2013. These options will become exercisable in four equal tranches, if at all, if and when the share price of the common stock closes at a certain percentage of the purchase price of the option for three consecutive business days, in accordance with the following vesting schedule:

	<b>Share price required to achieve vesting</b>
Tranche 1	\$ 34.788
Tranche 2	\$ 42.350
Tranche 3	\$ 51.425
Tranche 4	\$ 60.500

The grant of these options will have a material impact on the Company's future results of operations and on the comparability of the Company's results from period to period. The Company expenses the cost of these options granted on a straight-line basis over the implicit, or derived, service period of the option based on the grant-date fair value of the award. The Company expects to expense the compensation cost associated with these options based on the following schedule:

	<b>2015</b>				<b>2015 Total</b>	<b>2016 Total</b>
	<b>Q1</b>	<b>Q2</b>	<b>Q3</b>	<b>Q4</b>		
	(in thousands)					
Tranche 1	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -
Tranche 2	134	104	1	1	240	-
Tranche 3	73	72	72	72	289	59
Tranche 4	47	48	47	47	189	136
<b>Total expense</b>	<b>\$ 254</b>	<b>\$ 224</b>	<b>\$ 120</b>	<b>\$ 120</b>	<b>\$ 718</b>	<b>\$ 195</b>

However, if the market condition is achieved for any tranche of these options prior to the end of the derived service period, all remaining expense related to that tranche would be recognized in the period in which the market condition is achieved.

## Liquidity and Capital Resources

Liquidity refers to the liquid financial assets available to fund our business operations and pay for near-term obligations. These liquid financial assets consist of cash and short-term investments as well as unused borrowing capacity under our credit facility. Our cash requirements have historically been satisfied through a combination of cash flows from operations and debt and equity financings. We expect this trend to continue.

On April 24, 2015, we issued and sold 1,500,000 shares at \$23.00 per share in an underwritten public offering resulting in aggregate net proceeds to us of approximately \$32.2 million, after giving effect to the underwriting discount and estimated expenses. We have been using and intend to continue to use the net proceeds from the offering, together with new bank financing and cash on hand, to construct an integrated paper mill in Barnwell, South Carolina, consisting of a new facility to house a new paper machine and converting equipment to convert the parent rolls into finished product and to provide warehouse space for finished product and raw materials. On June 25, 2015, we entered into an agreement with US Bank National Association ("US Bank") which: (i) combined our existing \$20 million revolving line of credit designated for the purchase and construction of a paper machine and converting line in Pryor, OK and \$27.3 million currently outstanding under our existing term loan into a \$47.3 million term loan due in 2020; (ii) increased our delayed draw term loan facility from \$40 million to \$115 million; (iii) extended the maturity of the delayed draw facility from August 2015 to June 2020; and (iv) added a \$50 million accordion feature. Proceeds from the delayed draw term loan must be used solely to finance the acquisition and construction of buildings and equipment at our Barnwell facility. Advances under the facility bear interest at variable rates. The term loan is payable in quarterly installments of \$675,000 through June 2016 and \$1 million per quarter thereafter, while borrowings against the delayed draw term loan facility are payable in quarterly installments of 1.5% of the June 30, 2017 outstanding balance beginning in September 2017.

During the six months ended June 30, 2015, cash increased \$14.8 million, to \$15.8 million at June 30, 2015, compared to \$1.0 million at December 31, 2014. During the 2015 period, we incurred \$24.3 million of capital expenditures, received \$32.2 million of net proceeds from the follow-on stock offering discussed above, received \$20.0 million of borrowings under our term loan, repaid \$1.4 million of debt principal, decreased bank overdrafts by \$1.7 million, paid \$6.7 million in dividends to stockholders and made net repayments of \$7.7 million under our revolving line of credit.

As of June 30, 2015, total debt outstanding was \$47.3 million. Cash as of June 30, 2015, totaled \$15.8 million, resulting in a net debt level of \$31.5 million. This compares to \$36.4 million in total debt and a net cash overdraft of \$685,000 as of December 31, 2014, resulting in a net debt level of \$37.0 million. There were no amounts outstanding under our \$25.0 million revolving line of credit or our \$115.0 million delayed draw term loan as of June 30, 2015.

The following table summarizes key cash flow information for the six-month periods ended June 30, 2015 and 2014:

	<b>Six Months Ended June 30,</b>	
	<b>2015</b>	<b>2014</b>
<b>(in thousands)</b>		
<b>Cash flows provided by (used in):</b>		
Operating activities	\$ 4,934	\$ 3,093
Investing activities	\$ (24,262)	\$ (17,351)
Financing activities	\$ 34,109	\$ 13,190

Cash flows provided by operating activities was \$4.9 million in the six-month period ended June 30, 2015, which primarily resulted from earnings before non-cash charges, including depreciation and amortization, which were partially offset by increases in accounts receivable and inventories and a decrease in accounts payable. The increase in accounts receivable is primarily related to the timing of sales and related cash receipts. The increase in inventories is primarily due to higher finished goods inventories due to anticipation of sales levels during the second half of 2015 and higher parent roll inventories with the start-up of the new, more efficient paper machine in March 2015. The decrease in accounts payable is primarily related to the timing of purchases and cash payments.

Cash flows used in investing activities in the first six months of 2015 consisted entirely of \$24.3 million in expenditures on capital projects during the period.

Cash flows provided by financing activities was \$34.1 million in the six-month period ended June 30, 2015, primarily due to \$32.2 million of net proceeds received from our follow-on stock offering in April 2015 and \$12.3 million of borrowings under our revolving line of credit, which were partially offset by \$6.7 million of cash dividends paid to stockholders, \$1.4 million of debt principal repayments, and a \$1.7 million reduction in bank overdrafts. While we expect to continue to declare quarterly dividends, the payment of future dividends is at the discretion of the Board of Directors and the timing and amount of any future dividends will depend upon many factors, including our financial condition, earnings, cash requirements of our business, legal requirements, regulatory constraints, industry practice and other factors that the Board deems relevant. Our credit agreement contains an indirect restriction on the amount of cash dividends we pay in that the amount of dividends paid is included in the calculation of our fixed charge coverage ratio.

Cash flows provided by operating activities was \$3.1 million in the six-month period ended June 30, 2014, which primarily resulted from earnings before non-cash charges and an increase in accounts payable, which were partially offset by increases in accounts receivable, inventories and other receivables. The decrease in accounts payable is primarily related to the timing of purchases and cash payments, while the increase in accounts receivable is primarily related to the timing of sales and related cash receipts. The increase in inventories is primarily due to higher finished goods inventories due to: (i) improved converting efficiencies, (ii) lower converted product shipments during 2014 and (iii) anticipation of higher sales levels during the second half of 2014, and higher parent roll inventories due to: (i) lower converted product shipments and (ii) a planned increase for the outage due to installation of the new paper machine. The increase in other receivables is primarily due to the timing of tax payments.

Cash flows used in investing activities was \$17.4 million in the first six months of 2014 as a result of \$16.7 million of cash paid in the Fabrica Transaction and \$5.7 million in expenditures on capital projects, which was partially offset by \$5.0 million of proceeds from the sale of short-term investments.

Cash flows provided by financing activities was \$13.2 million in the six-month period ended June 30, 2014, primarily as a result of \$33.9 million of borrowings under our new credit facility, which was partially offset by \$15.1 million of debt payments, including the payoff of \$14.6 million when our debt was refinanced with a new creditor, and \$5.7 million of cash dividends paid to stockholders.

### **Critical Accounting Policies and Estimates**

The preparation of our financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and judgments that affect our reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. On an on-going basis, we evaluate our estimates and assumptions based upon historical experience and various other factors and circumstances. Management believes that our estimates and assumptions are reasonable under the circumstances; however, actual results may vary from these estimates and assumptions under different future circumstances. We have identified the following critical accounting policies that affect the more significant judgments and estimates used in the preparation of our financial statements:

*Accounts Receivable.* Accounts receivable consist of amounts due to us from normal business activities. Our management must make estimates of accounts receivable that will not be collected. We perform ongoing credit evaluations of our customers and adjust credit limits based upon payment history and the customer's creditworthiness as determined by our review of their current credit information.

We continuously monitor collections and payments from our customers and maintain a provision for estimated losses based on historical experience and specific customer collection issues that we have identified. Trade receivables are written-off when all reasonable collection efforts have been exhausted, including, but not limited to, external third-party collection efforts and litigation. While such credit losses have historically been within management's expectations and the provisions established, there can be no assurance that we will continue to experience the same credit loss rates as in the past. During the six-month period ended June 30, 2015, no accounts receivable not expected to be collected were written off against the allowance for doubtful accounts, and the provision was not increased or decreased based on historical experience and an evaluation of the quality of existing accounts receivable, resulting in a no change to the provision. During the six-month period ended June 30, 2014, no accounts receivable not expected to be collected were written off against the allowance for doubtful accounts, and the provision was not increased or decreased based on historical experience and an evaluation of the quality of existing accounts receivable. Recovery of a \$1,000 receivable previously written off was credited to the provision, resulting in a net increase of \$1,000 in the provision.

*Inventory.* Our inventory consists of converted finished goods, bulk paper rolls and raw materials and is stated at the lower of cost or market based on standard cost, specific identification, or FIFO (first-in, first-out). Standard costs approximate actual costs on a FIFO basis. Material, labor and factor overhead necessary to produce the inventories are included in the standard cost. Our management regularly reviews inventory quantities on hand and records a provision for excess and obsolete inventory based on the age of the inventory and forecasts of product demand. A significant decrease in demand could result in an increase in the amount of excess inventory quantities on hand. During the first six months of 2015, the inventory allowance was increased \$144,000 based on a specific review of estimated slow moving or obsolete inventory items and was decreased \$127,000 due to actual write-offs of obsolete inventory items, resulting in a net increase in the allowance of \$17,000. During the first six months of 2014, the inventory allowance was increased \$123,000 based on a specific review of estimated slow moving or obsolete inventory items and was decreased \$92,000 due to actual write-offs of obsolete inventory items, resulting in a net increase in the allowance of \$31,000.

*Property, plant and equipment.* Significant capital expenditures are required to establish and maintain a paper mill and converting facility. Our property, plant and equipment consists of land, buildings and improvements, machinery and equipment, vehicles, parts and spares and construction-in-process, which are stated at cost, net of accumulated depreciation. Depreciation of property, plant and equipment is calculated using the straight-line method over the estimated useful lives of the assets. Our management regularly reviews estimated useful lives to determine whether any changes are necessary to reflect the related assets' actual productive lives. The lives of our property, plant and equipment currently range from 2.5 to 40 years.

*Stock-based Compensation.* U.S. GAAP requires equity-classified, share-based payments to employees, including grants of employee stock options, to be valued at fair value on the date of grant and to be expensed over the applicable vesting period. We recognize this expense on a straight-line basis over the options' expected terms. We issue stock options that vest over a specified period (time-based vesting) and stock options that vest when the price of the Company's common stock reaches a certain price (market-based vesting). We also issue restricted stock.

We granted options to purchase 40,000 and 585,000 shares of our common stock in the first six months of 2015 and 2014, respectively. We recorded stock-based compensation expense of \$665,000 and \$1,143,000 during the six-month periods ended June 30, 2015 and 2014, respectively, in connection with the option grants. In February 2013, we granted 16,000 shares of restricted stock. We recorded stock-based compensation expense of \$25,000 and \$29,000 during the six months ended June 30, 2015 and 2014, respectively, in connection with the restricted stock grants. Grants of restricted stock are valued using the closing market price of our common stock on the date of grant.

We estimate the grant date fair value of time-based stock option awards using the Black-Scholes option valuation model, which requires assumptions involving an estimate of the fair value of the underlying common stock on the date of grant, the expected term of the options, volatility, discount rate and dividend yield. Separate values were determined for options having exercise prices ranging from \$5.18 to \$30.09. For options valued using the Black-Scholes option valuation model, we calculated expected option terms based on the "simplified" method for "plain vanilla" options, due to the Company's limited exercise information. The "simplified method" calculates the expected term as the average of the vesting term and the original contractual term of the options. We calculated volatility using the daily volatilities of our common stock since our Initial Public Offering ("IPO"), while the discount rate was estimated using the interest rate for a treasury note with the same contractual term as the options granted. Dividend yield is estimated at our current dividend rate, with adjustments for any known future changes in the rate.

We have engaged a valuation specialist to estimate the grant date fair value of market-based stock option awards. Separate values were determined for options having exercise prices ranging from \$28.185 to \$31.125. The specialist utilizes a Monte Carlo valuation method to estimate the grant date fair value of the options granted in order to simulate a range of our possible future stock prices. Significant assumptions to the Monte Carlo method include the expected life of the option, volatility and dividend yield. The expected life of the option is based on the average of the service period and the contractual term of the option, using the "simplified" method for "plain vanilla" options. Volatility is calculated based on a mix of historical and implied volatility during the expected life of the options. Historical volatility is considered since our IPO and implied volatility is based on the publicly traded options of a three company peer group within the paper industry. Dividend yield is estimated based on our average historical dividend yield and our current dividend yield as of the grant date. The Monte Carlo analysis is performed under a risk-neutral premise, under which price drift is modeled using treasury note yields matching the expected life of the options.

Under U.S. GAAP, we expense the compensation cost related to the marked-based stock option awards on a straight-line basis over the derived service periods of the options as calculated under the Monte Carlo valuation method. However, if the market condition is achieved for any tranche of these options prior to the end of the derived service period, all remaining expense related to that tranche would be recognized in the period in which the market condition is achieved. Additionally, if the service period is met but the share price target required for the options to become exercisable is never achieved, no compensation cost may be reversed. As such, we may recognize expense for options that never become exercisable.

In addition, we are required to develop an estimate of the number of share-based awards that will be forfeited due to employee turnover. The guidance on stock compensation requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates in order to derive our best estimate of awards ultimately expected to vest. We estimate forfeitures based on historical experience related to our own stock-based awards granted. We anticipate that these estimates will be revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates.

*Intangible Assets and Goodwill.* We allocate the cost of business acquisitions to the assets acquired and liabilities assumed based on their estimated fair values at the date of acquisition (commonly referred to as the purchase price allocation). As part of the purchase price allocations for our business acquisitions, identifiable intangible assets are recognized as assets apart from goodwill if they arise from contractual or other legal rights, or if they are capable of being separated or divided from the acquired business and sold, transferred, licensed, rented or exchanged. We have engaged a valuation specialist to estimate the fair value of our purchase price and the related intangible assets acquired.

In June 2014, we acquired certain assets and the U.S. business of Fabrica. Due to these transactions, we separately recognized the fair values of a combined Supply and Lease Agreement, trademarks, a non-compete agreement and customer relationships. The fair value of these assets was determined using an income approach, as follows: Supply and Lease Agreement - discounted cash flows method, trademarks — “relief from royalty” method, non-compete agreement - “with and without” method, and customer relationships - excess earnings method. An income approach requires estimates of future income. Under the discounted cash flow method, we utilized assumptions related to the term of the agreements, the net benefit from the agreements and any changes in that benefit over the term of the agreement, future tax rates and discount rates. Under the relief from royalty method, we estimated the useful lives of the trademarks, future revenues associated with the trademarks, a royalty rate and a discount rate. The with and without method requires assumptions related to the probability of competition in the absence of the non-compete agreement, the loss of future revenues due to competition and discount rates. Under the excess earnings method, we must estimate future revenues, including growth and attrition rates, income tax rates, a rate of return on assets, and discount rates. Future revenues and estimated benefits from the agreements are based on management’s knowledge of the industry, customers, operations and the agreements. Tax rates are based on current effective tax rates. The royalty rate is based on analysis of current royalty rates for corporate and product trademarks for similar products and evaluation of factors such as alternative trademarks available, legal defensibility, remaining useful life, licensing power, net revenue margin, market share, barriers to entry, capital requirements and customers’ bargaining power. The discount rate used to determine the present value of future cash flows was based on the weighted average cost of capital method.

The value assigned to goodwill equals the amount of the purchase price of the business acquired in excess of the sum of the amounts assigned to identifiable acquired assets, both tangible and intangible, less liabilities assumed. At June 30, 2015, we had goodwill of \$7.6 million and identifiable intangible assets, net of accumulated amortization, of \$16.5 million.

Intangible assets are amortized over their respective estimated useful lives ranging from two to twenty years. The useful life of an intangible asset is the period over which the asset is expected to contribute directly or indirectly to our future cash flows rather than the period of time that it would take us to internally develop an intangible asset that would provide similar benefits. The estimate of the useful lives of our intangible asset is based on an analysis of all pertinent factors, in particular:

- the expected use of the asset by the entity;
- the expected useful life of another asset or group of assets to which the useful life of the intangible asset may relate;
- any legal, regulatory or contractual provisions that may limit the useful life;
- any legal, regulatory, or contractual provisions that enable renewal or extension of the asset’s legal or contractual life without substantial cost (provided there is evidence to support renewal or extension and renewal or extension can be accomplished without material modifications of the existing terms and conditions);
- the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry, known technological advances, legislative action that results in an uncertain or changing regulatory environment, and expected changes in distribution channels); and
- the level of regular maintenance expenditures (but not enhancements) required to obtain the expected future cash flows from the asset (for example, a material level of required maintenance in relation to the carrying amount of the asset may suggest a limited useful life).

If no legal, regulatory, contractual, competitive, economic, or other factors limit the useful life of an intangible asset, the useful life of the asset is considered to be indefinite. The term indefinite does not mean infinite. An intangible asset with a finite useful life is amortized over that useful life; an intangible asset with an indefinite useful life is not amortized. We have no intangible assets with indefinite useful lives. Under U.S. GAAP, goodwill is not amortized.

*Impairment of Goodwill and Other Long-Lived Assets.* We review long-lived assets such as property, plant and equipment, intangible assets and goodwill for impairment whenever events or changes in circumstances indicate that the carrying amount of these assets may not be recoverable, and also review goodwill annually. U.S. GAAP requires that goodwill be tested, at a minimum, annually for each reporting unit. The first step in testing goodwill to assess qualitative factors to determine whether it is more likely than not that goodwill is impaired as a basis for determining whether it is necessary to perform the quantitative impairment test. If the first step indicates a quantitative test must be performed, the second step is to identify any potential impairment by comparing the carrying value of the reporting unit to its fair value. If a potential impairment is identified, the third step is to measure the impairment loss by comparing the implied fair value of goodwill with the carrying value of goodwill of the reporting unit. Alternatively, the Company may bypass the qualitative assessment in any period and proceed directly to performing the second step. As the goodwill on the consolidated balance sheet as of March 31, 2015 is related to the acquisition that occurred in June 2014, the Company plans to perform its initial goodwill impairment test in 2015.

### **New Accounting Pronouncements**

Refer to the discussion of recently adopted/issued accounting pronouncements under Part I, Notes to Unaudited Interim Financial Statements Note 14 — New Accounting Pronouncements.

### **Non-GAAP Discussion**

In addition to our GAAP results, we also consider non-GAAP measures of our performance for a number of purposes. The three non-GAAP financial measures used within this report are: (1) EBITDA, (2) Adjusted EBITDA and (3) Net Debt.

#### *EBITDA and Adjusted EBITDA*

We use EBITDA and Adjusted EBITDA as a supplemental measure of our performance that is not required by, or presented in accordance with GAAP. EBITDA and Adjusted EBITDA should not be considered as an alternative to net income, operating income or any other performance measure derived in accordance with GAAP, or as an alternative to cash flows from operating activities or a measure of our liquidity.

EBITDA represents net income before net interest expense, income tax expense, depreciation and amortization. Amortization of deferred debt issuance costs is included in net interest expense. Adjusted EBITDA represents EBITDA before non-cash stock compensation expense. We believe EBITDA and Adjusted EBITDA facilitate operating performance comparisons from period to period and company to company by eliminating potential differences caused by variations in capital structures (affecting relative interest expense), tax positions (such as the impact on periods or companies of changes in effective tax rates or net operating losses), the age and book depreciation of facilities and equipment (affecting relative depreciation expense) and non-cash compensation and valuation (affecting stock compensation expense).

EBITDA and Adjusted EBITDA have limitations as an analytical tool, and you should not consider them in isolation, or as a substitute for any of our results as reported under GAAP. Some of these limitations are:

- they do not reflect our cash expenditures for capital assets;
- they do not reflect changes in, or cash requirements for, our working capital requirements;
- they do not reflect cash requirements for cash dividend payments;
- they do not reflect the interest expense, or the cash requirements necessary to service interest or principal payments on our indebtedness;
- although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA and Adjusted EBITDA do not reflect cash requirements for such replacements; and
- other companies, including other companies in our industry, may calculate these measures differently than we do, limiting their usefulness as a comparative measure.

Because of these limitations, EBITDA and Adjusted EBITDA should not be considered as a measure of discretionary cash available to us to invest in the growth of our business or to reduce our indebtedness. We compensate for these limitations by relying primarily on our GAAP results and using EBITDA and Adjusted EBITDA on a supplemental basis.

The following table reconciles EBITDA and Adjusted EBITDA to net income for the three months ended June 30, 2015 and 2014:

	<b>Three Months Ended June 30,</b>	
	<b>2015</b>	<b>2014</b>
	<b>(in thousands, except % of net sales)</b>	
Net income	\$ 3,878	\$ 546
Plus: Interest expense, net	64	112
Plus: Income tax expense	1,312	324
Plus: Depreciation	2,333	2,232
Plus: Intangibles amortization	377	108
EBITDA	\$ 7,964	\$ 3,322
% of net sales	18.8%	11.4%
Plus: Stock compensation expense	423	1,007
Plus: Acquisition costs	-	1,478
Adjusted EBITDA	\$ 8,387	\$ 5,807
% of net sales	19.8%	19.9%

Adjusted EBITDA increased \$2.6 million to \$8.4 million in the quarter ended June 30, 2015, compared to \$5.8 million in the same period in 2014. Adjusted EBITDA as a percent of net sales decreased slightly to 19.8% in the second quarter of 2015 from 19.9% in the second quarter of 2014. EBITDA increased \$4.6 million to \$8.0 million in the quarter ended June 30, 2015, compared to \$3.3 million in the same period in 2014. EBITDA as a percent of net sales increased to 18.8% in the second quarter of 2015 from 11.4% in the second quarter of 2014. The foregoing factors discussed in the net sales, cost of sales and selling, general and administrative expenses sections are the reasons for the decrease.

The following table reconciles EBITDA and Adjusted EBITDA to net income for the six-month periods ended June 30, 2015 and 2014:

	<b>Six Months Ended June 30,</b>	
	<b>2015</b>	<b>2014</b>
	<b>(in thousands, except % of net sales)</b>	
Net income	\$ 5,114	\$ 3,189
Plus: Interest expense, net	278	125
Plus: Income tax expense	1,960	1,506
Plus: Depreciation	4,421	4,441
Plus: Intangibles amortization	754	108
EBITDA	\$ 12,527	\$ 9,369
% of net sales	15.7%	16.4%
Plus: Stock compensation expense	690	1,172
Plus: Acquisition costs	-	1,487
Adjusted EBITDA	\$ 13,217	\$ 12,028
% of net sales	16.6%	21.1%

Adjusted EBITDA increased \$1.2 million to \$13.2 million in the six-month period ended June 30, 2015, compared to \$12.0 million in the same period in 2014. Adjusted EBITDA as a percent of net sales decreased to 16.6% in the 2015 period from 21.1% in the same period of 2014. EBITDA increased \$3.2 million to \$12.5 million in the six-month period ended June 30, 2015, compared to \$9.4 million in the same period in 2014. EBITDA as a percent of net sales decreased to 15.7% in the 2015 period from 16.4% in the second quarter of 2014. The foregoing factors discussed in the net sales, cost of sales and selling, general and administrative expenses sections are the reasons for the decrease.

## Net Debt

We use Net Debt as a supplemental measure of our leverage that is not required by, or presented in accordance with GAAP. Net Debt should not be considered as an alternative to total debt, total liabilities or any other performance measure derived in accordance with GAAP. Net Debt represents total debt reduced by cash and short-term investments. We use this figure as a means to evaluate our ability to repay our indebtedness and to measure the risk of our financial structure.

Net Debt represents the amount that Cash is less than total Debt of the Company. The amounts included in the Net Debt calculation are derived from amounts included in the historical Balance Sheets. We have reported Net Debt because we regularly review Net Debt as a measure of the Company's leverage. However, the Net Debt measure presented in this document may not be comparable to similarly titled measures reported by other companies due to differences in the components of the calculation.

Net Debt decreased from \$37.0 million on December 31, 2014, to \$31.5 million on June 30, 2015, primarily as a result of an increase in cash due to cash proceeds received from our follow-on stock offering in April 2015.

The following table presents Net Debt as of June 30, 2015, and December 31, 2014:

	As of	
	June 30, 2015	December 31, 2014
	(in thousands)	
Current portion long-term debt	\$ 2,700	\$ 2,700
Long-term debt	44,600	33,662
Total debt	47,300	36,362
Less: Cash	(15,802)	685
Net debt	\$ 31,498	\$ 37,047

### ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

There has been no material change in the information provided in response to Item 7A of the Company's Form 10-K for the year ended December 31, 2014.

### ITEM 4. Controls and Procedures

Our management, under the supervision and with the participation of our chief executive officer and our chief financial officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended), as of the end of the period covered by this Quarterly Report on Form 10-Q. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Based on such evaluation, our chief executive officer and our chief financial officer have concluded that our disclosure controls and procedures were effective at a reasonable assurance level as of June 30, 2015.

There were no changes in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) during the quarter ended June 30, 2015, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II. OTHER INFORMATION

### ITEM 1. Legal Proceedings

In management's opinion, as of the date of this report, the Company is not engaged in legal proceedings which individually or in the aggregate are expected to have a materially adverse effect on the Company's results of operations or financial condition. Further, management is not aware that any such proceedings are being contemplated or threatened.

### ITEM 1A. Risk Factors

We operate in a changing environment that involves numerous known and unknown risks and uncertainties that could materially affect our operations. Factors that could materially affect our actual results, levels of activity, performance or achievements include, but are not limited to, those detailed below, those under the caption "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014, as filed with the SEC on March 9, 2015, and those in our subsequent filings with the SEC. Such risks, uncertainties and other factors may cause our actual results, performances and achievements to be materially different from those expressed or implied by our forward-looking statements. If any of these risks or events occur, our business, financial condition or results of operations may be adversely affected.

*There can be no assurance that we will be able to complete the construction project in Barnwell, South Carolina, on the schedule or terms expected or at all, which could substantially adversely affect our strategic plans and projections.*

As described in our filings, construction of a converting facility in Barnwell, South Carolina was started in the second quarter of 2015. However, there can be no assurance that the construction of the building, installation of the paper machine and converting equipment or ramping up of the production will proceed on schedule, in the manner planned, for the anticipated cost or at all. If the equipment suppliers fail to timely deliver the proper equipment or the construction of the facilities is delayed due to weather or structural issues, we may be unable to complete the construction project and bring the facility to full capacity in a timely and cost effective manner, and as a result, our business and projections could be materially and adversely impacted.

**ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds**

*(a) Unregistered Sales of Equity Securities*

None.

*(b) Initial Public Offering and Use of Proceeds from the Sale of Registered Securities*

None.

*(c) Repurchases of Equity Securities*

We do not have any programs to repurchase shares of our common stock and no such repurchases were made during the three months ended June 30, 2015.

**ITEM 3. Defaults Upon Senior Securities**

None.

**ITEM 4. Mine Safety Disclosures**

Not applicable.

**ITEM 5. Other Information**

None.

**ITEM 6. Exhibits**

See the Exhibit Index following the signature page to this Form 10-Q, which Exhibit Index is hereby incorporated by reference herein.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

**ORCHIDS PAPER PRODUCTS COMPANY**

Date: August 5, 2015

By: /s/ Keith R. Schroeder  
Keith R. Schroeder  
Chief Financial Officer  
(On behalf of the registrant and as Chief Accounting Officer)

## Exhibit Index

<b>Exhibit</b>	<b>Description</b>
3.1	Amended and Restated Certificate of Incorporation of the Registrant dated May 17, 2013, incorporated by reference to Exhibit 3.1 to the Registrant's Form 10-Q (SEC Accession No. 0001104659-13-058279) filed with the SEC on July 31, 2013.
3.2	Amended and Restated Bylaws of the Registrant amended May 17, 2013, incorporated by reference to Exhibit 3.2 to the Registrant's Form 10-Q (SEC Accession No. 0001104659-13-058279) filed with the SEC on July 31, 2013.
10.1	Second Amended and Restated Credit Agreement, dated as of June 25, 2015, among Orchids, U.S. Bank National Association, as administrative agent, lead arranger and sole book runner, the lenders named therein, and JPMorgan Chase Bank, N.A., as documentation agent, incorporated by reference to the Registrant's Current Report on Form 8-K (SEC Accession No. 0001144204-15-039721) filed with the SEC on June 29, 2015.
31.1	Certification of Chief Executive Officer Pursuant to Section 302.
31.2	Certification of Chief Financial Officer Pursuant to Section 302.
32.1	Certification of Chief Executive Officer Pursuant to Section 906.
32.2	Certification of Chief Financial Officer Pursuant to Section 906.
101	The following financial information from Orchids Paper Products Company's Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2015, formatted in XBRL (eXtensible Business Reporting Language): (i) Consolidated Statements of Income for the three and six months ended June 30, 2015 and 2014, (ii) Consolidated Balance Sheets as of June 30, 2015 and December 31, 2014, (iii) Consolidated Statements of Cash Flows for the six months ended June 30, 2015 and 2014, and (iv) Notes to Consolidated Unaudited Interim Financial Statements.

**Certification of Chief Executive Officer Pursuant to Section 302**

I, Jeffrey S. Schoen, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Orchids Paper Products Company (the "Registrant");
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this report;
4. The Registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter (the Registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting; and
5. The Registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit committee of the Registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.

Date: August 5, 2015

/s/ Jeffrey S. Schoen

Jeffrey S. Schoen

Chief Executive Officer and President

**Certification of Chief Financial Officer Pursuant to Section 302**

I, Keith R. Schroeder, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Orchids Paper Products Company (the "Registrant");
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this report;
4. The Registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter (the Registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting; and
5. The Registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit committee of the Registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.

Date: August 5, 2015

Chief Financial Officer

**Certification of Chief Executive Officer Pursuant to Section 906**

In connection with the quarterly report of Orchids Paper Products Company (the "Company") on Form 10-Q for the period ended June 30, 2015 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Jeffrey S. Schoen, Chief Executive Officer and President of the Company, certify, to the best of my knowledge, pursuant to Rule 13a-14(b) and Section 1350 of Chapter 63 of Title 18 of the United States Code, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
